YOUR SOLUTIONS PROVIDER FOR FIRE SAFETY AND CONTROL AUTOMATION

PT Beone Technology – a part of Draco Group – was established to focus on industries market, especially to serve Oil & Gas, Petrochemical, Power Industries and other heavy industries.

INTRODUCTION

Our story began with a belief to deliver the best quality services to our valued customers. From there, we always aim to leverage our practice in order to provide a safer, more accessible and most importantly environment sustainable services.

To this day, PT. Beone Technology has grown to become an established solution provider specialized in a much wider range of services. Offering a dozen quality services that have stretched our target market even to the most unique individuals, we are confident we can fulfill your satisfaction.

Our core value was true when we were first established back then in 2010, and it is just as true a decade later.

BENNY BENYAMIN
PRESIDENT DIRECTOR

ABOUT US

First established in 2010, PT Beone Technology always strives to become a premier solutions provider for Fire & Gas System, Fire Alarm and Suppression System, Industry/Process Automation, Safety and Critical Systems.

As a part of Draco Group, we specifically put our focus on industries market. From Offshore Oil & Gas Production Platforms, Petrochemical Plants, Refineries, Power Plant, Fertilizer Plant, to industries in general, our solutions has been technological proven to be effective on those fields.

Offering a wide variety of technical services, from consultancy, system design, engineering, and programming to full turn-key systems integration, on-site commissioning, also training and maintenance; we are confident we can satisfy every unique need of our valued customers.

We are driven by our customer satisfactions. Thus, equipped with strong technical and many years of in-depth knowledge, along with an extensive experience in this industry, our team members are all ready to ensure fast-track project completion as well as delivering highest quality products.

OUR SERVICES

Cabinet Design & Fabrication

All of your electrical components are likely to be housed within a sheet metal box, and if the locations in which they are installed have any unique characteristics, you'll probably require a custom solution.

Consultancy, Assessment & Design

We are a team of licensed engineers and professionals who are experienced in delivering workable solutions. From consulting, designing to installing, we are equipped with strategic and practical knowledge to assist in achieving your objectives.

Product Training

Product training focuses on the operation & maintenance system, on educating customer on the features and benefits of what customer buy.

MISSION STATEMENT

To deliver the best turn-key solution to customers, in helping customers to generate positive economic profit by staying focused on their core business efficiency and operational productivity.

CORE BELIEFS

- ✓ Our Most Productive Investment Remains Our People
- ✓ Good Quality Means We Encourage Our People To Be Committed To A Project Rather Than Just Be Involved In It
- ✓ We're Learning And Gain Knowledge Through Every Partnership And Opportunity
- ✓ We're In Business To Serve The Needs And Desires Of Our Core Customer Base

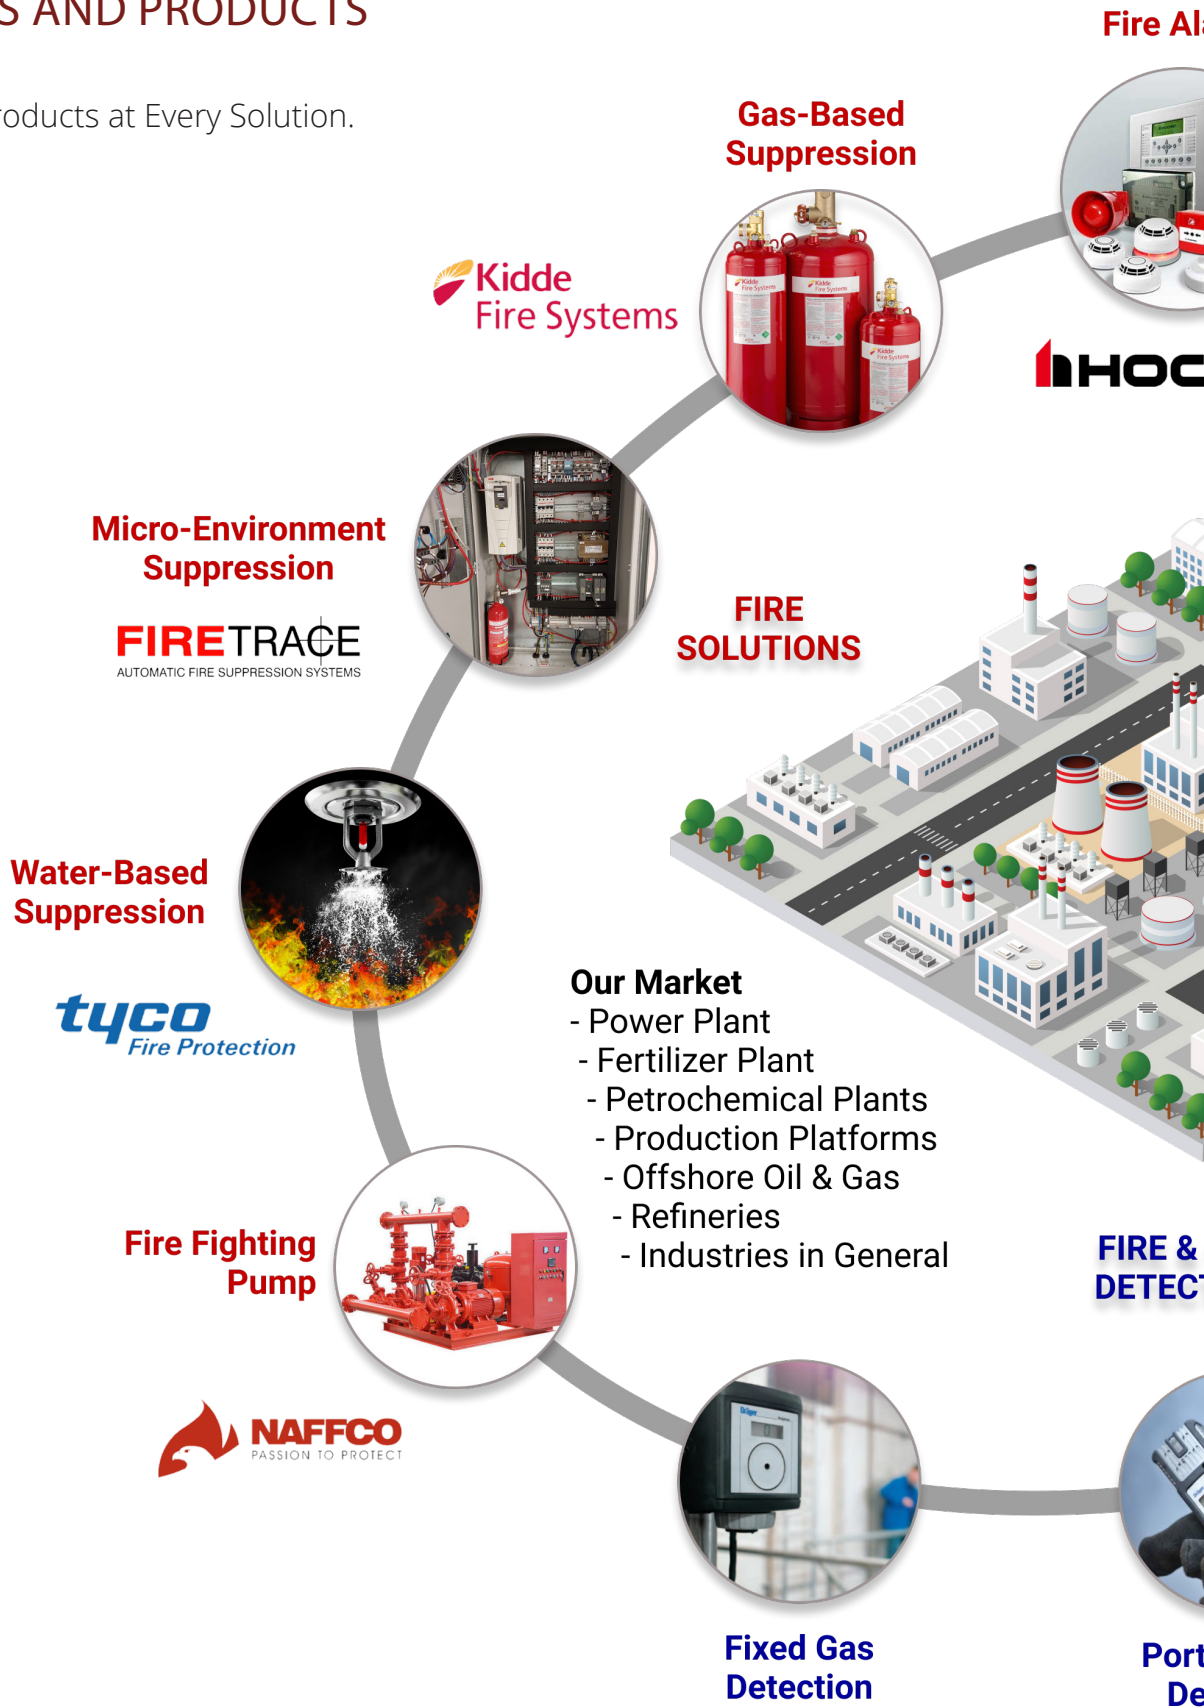

QUALITY MANAGEMENT

PT. Beone Technology has been awarded ISO 9001:2015 and ISO 45001:2018 certifications both are internationally recognized standards that ensures products and services meet the needs of clients through effective quality management systems. We are always committed to consistently deliver quality products and services to our clients as well as investing our attention to technology development for a better solution.
